

# Hiccups

Billy Crawford

I'm intrigued but,  
I can't get the words to speak  
Something about the way she looks at me  
Ties my tongue so nervous inside  
Eyes (eyes) green her body's like fire (fire) hot as hell so I try, baby  
And I hope it's not too late

Cause usually it's so simple for me but not with that girl  
She's so fine!

Baby so fine got me stuck like hiccup  
Tripping over words like a nerd when we get up  
I try to play it cool but when I do  
Ohh get the hiccups

I'm confused  
I don't know what I should do  
Cause everytime that I choose to move  
Seems just like I lose her  
Body has got me stumbling  
Like I've been drinking something  
Tipsy so high, she's so fine!

Ohh ohh  
The next time that I see her  
Ohh ohh  
I think I'm going to tell her  
Ohh ohh  
How bad I really need her  
Ohh ohh  
If I could speak the words

I was at the bar when I saw you pass you gave me hiccups  
but that wasn't from a glass, that was from your ass I ain't  
go in front from your back to your front got me wilden I'm smilin like  
This is something I want hiccup there we go again I got ya  
Holler in act your friends I see you girls I'm about to go with him  
And I'm feeling your get ups so lets bounce cause I'm  
feeling the hiccups song. Billy Crawford.

Ohh ohh  
Ohh ohh  
The next time that I see her  
Ohh ohh  
I'm gonna need her yeah  
Ohh ohh  
How bad I really need her (hey yeah ohh hear me girl!)
