

# Bring It On Over

Billy Currington

Oh yeah

Baby I can't stop thinking 'bout last night  
Still taste your kiss, still taste the wine  
Tryna turn this ten minute drive to five  
Oh, I've been  
Daydreaming 'bout you all day long  
Radio's been playing all our songs  
Just read your message on my phone  
It's turning me on

When you say you need me  
And you just got to see me  
And all you want is me right now  
Oh baby just wait a minute  
If you're in the bed stay in it  
I'm about to dive on in it  
Got to got to get you closer  
I'm about to bring it on over

Twist you up in them satin sheets  
I bet you don't get no sleep  
(I'm gettin' closer)  
Make a little love to a Motown beat  
Catching your groove with me  
I'm about to bring it on over

I know that key's under the mat  
So girl just stay right where you're at  
Be right beside you just like that  
I want you so bad  
Girl let's pick up where we left off  
A little more love, a lot less talk  
'Bout to hear my footsteps down your hall  
Hang on

When you say you need me  
And you just got to see me  
And all you want is me right now  
Oh baby just wait a minute  
If you're in the bed stay in it  
I'm about to dive on in it  
Got to got to get you closer  
I'm about to bring it on over

Twist you up in them satin sheets  
I bet you don't get no sleep  
(I'm gettin' closer)  
Make a little love to a Motown beat  
Catching your groove with me

Wanna see our shadows on the wall  
Wanna see your beautiful body  
Ain't nobody gonna stop me  
I'm about to bring it on over  
Bring it on over  
Yeah bring it on over

Bring it on over

When you say you need me  
And you just got to see me  
And all you want is me right now  
Oh baby just wait a minute  
If you're in the bed stay in it  
I'm about to dive on in it  
Got to got to get you closer  
I'm about to bring it on over

Twist you up in them satin sheets  
I bet you don't get no sleep  
Make a little love to a Motown beat  
Catching your groove with me

Twist you up in them satin sheets  
I bet you don't get no sleep  
(Bring it on over)  
Make a little love to a Motown beat  
(Bring it on over)  
Catching your groove with me

Twist you up in them satin sheets  
I bet you don't get no sleep  
Make a little love to a Motown beat  
Catching your groove with me baby
