

Get Close

Billy Currington

I can't take my eyes off you
Nothing more that I can do
You wrap me up in a zone
Next to you is where I belong
I can't take my eyes off you

Think I'm infatuated
Don't you know
Got me captivated
Don't let go
A kiss from you I wanna
Soak in all your sin
After that I'm gonna
Take you home and then

Let's get close
Nothing else I want from you
But don't you know
I'm about to lose my mind
Let's get close
Only thing I wanna do
Yeah don't you know
We're out here wasting time
So get close, get close
Get close, get close

Baby, feel this energy
Fueling all this chemistry
It's obvious that we're on fire
Yeah we've got the same desire
Baby, feel this energy

Ain't just a late occasion
We should go
What I'm really saying
I think you know

Let's get close
Nothing else I want from you
But don't you know
I'm about to lose my mind
Let's get close
Only thing I wanna do
Yeah, don't you know
We're out here wasting time
So get close, get close
Get close, get close

A kiss from you I wanna
Soak in all your sin
After that I'm gonna
Take you home and then

Let's get close
Nothing else I want from you
But don't you know
I'm about to lose my mind

Let's get close
Only thing I wanna do
Yeah don't you know
We're out here wasting time
So get close, get close
Get close, get close
Get close, get close
Get close, get close
Get close, get close
