

In Love

Billy Currington

I'm back in the line one more time
At it again and on the grind
I'm home baby
I figured that while you're there
I ain't telling no-one here
I'm closed baby, oh

And oh yes I know
That it shows
Oh

Fell in love this time
Can't run from your touch this time
When the New York City lights are low
I don't think you'll have to know
What I'm feeling has to show
The way that I'm drawn baby
I feel this so much
I'm sure baby in love

Tryna the day away
But all I can do is see your face
I've got it bad, yeah
I think I'ma tell my best friends
I know that they'll understand
This kinda magic, oh

Fell in love this time
Can't run from your touch this time
When the New York City lights are low
I don't think you'll have to know
What I'm feeling has to show
The way that I'm drawn baby
I feel this so much
I'm sure baby in love

And oh yes I know
That it shows

Fell in love this time
Can't run from your touch this time
When the New York City lights are low
I don't think you'll have to know
What I'm feeling has to show
The way that I'm drawn baby
I feel this so much
I'm sure baby in love
