

## Just Say

Billy Currington

Where were you Friday night?  
Winding the hands of time  
Knowing there's things we need to say  
And where were you Friday night?  
While I was going out my mind  
Over things I tried but can't explain

Phone calls go to voicemail  
And the text didn't send  
Tried your best friend  
But that failed  
None of it makes sense

If it's over then Baby, just say  
Baby, just say  
Baby, just say  
If it's over God, I'll be okay  
I've felt this feeling for many a day  
So Baby, just say  
Baby, just say  
If it's over God, I'll be ok  
Don't be afraid

We can't fix anything  
The silence is broken  
Tell what I'm supposed to do, oh  
Here to pour my heart out  
We've got so much to talk about  
I really need to hear it all from you

If it's over then Baby, just say  
Baby, just say  
Baby, just say  
If it's over God, I'll be ok  
I've felt this feeling for many a day  
So Baby, just say  
Baby, just say  
If it's over God, I'll be ok  
Don't be afraid

So just say what's on your heart  
Let it all fall out  
Even though I know it's hard

If it's over then Baby, just say  
Baby, just say  
Baby, just say  
If it's over God, I'll be ok

If it's over then Baby, just say  
Baby, just say  
Baby, just say  
If it's over God I'll be ok

I've felt this feeling for many a day  
So Baby, just say  
Baby, just say

If it's over God I'll be ok  
Don't be afraid
