

Lead Me

Billy Currington

All night, thinking about the way you treated me
When I was down
Inside something about your heart just speaks to me
To come around
Time can never heal
Something only you can change
I don't know how to feel
So you should guide the way

Lead me through the darkness
I don't wanna lose you
Lead me through the darkness
All I've got is you
And I'll never give up, never give up, no
So don't you ever give up, ever give up, no
Lead me through the darkness
Lead me, just lead me

Your touch shows me where I know I need to be
So come close
Time can never heal
Something only you can change
I don't know how to feel
So you should guide the way

Lead me through the darkness
I don't wanna lose you
Lead me through the darkness
All I've got is you
And I'll never give up, never give up, no
So don't you ever give up ever give up, no
Lead me through the darkness
Lead me, just lead me

Time can never heal
Something only you can change
Lead me through the darkness
I don't wanna lose you
Lead me through the darkness
All I've got is you

Lead me through the darkness
I don't wanna lose you
Lead me through the darkness
All I've got is you
And I'll never give up, never give up, no
So don't you ever give up ever give up, no
Lead me through the darkness
Lead me, just lead me
