

Lighthouse

Billy Currington

We've been through the rainstorms
Both been lost and found
Waded through the waters
To end on rocky ground
Promised we would hold on tight
Never to let go
But yet this ship is sinking fast
We have no control

We can't save us
Can't save us tonight

Oh, I can see the lighthouse burning
I can see it all in flames
I can feel the tide is turning
And we'll never be the same
I can see the lighthouse burning
I've drifted so far from you
Out where waves just fade
And love is replaced
And broken hearts just ain't the same
Now the lighthouse is up in flames

Try to solve these problems
But all we did didn't work
We prayed to God to fix us
Take away the hurt

Can you save us?
Can you save us tonight?

Oh, I can see the lighthouse burning
I can see it all in flames
I can feel the tide is turning
And we'll never be the same
I can see the lighthouse burning
I've drifted so far from you
Out where waves just fade
And love is replaced
And broken hearts just ain't the same
Now the lighthouse is up in flames

Lighthouse up in flames
Lighthouse up in flames

I can see the lighthouse burning
I can see it all in flames
I feel the tide is turning
And we'll never be the same, oh
I can see the lighthouse burning
I've drifted so far from you
Out where waves just fade
And love is replaced
And broken hearts just ain't the same
Now the lighthouse is up in flames
