

Perfect Day

Billy Currington

Baby drop what your doin'
Let's jump off this merry-go-round
I don't know if we're comin' or goin'
Same old same old bringing me down

I've had it up to here with this rat race
We're just wasting time not tasting life

I'd rather be sittin' on the beach
Watching the sun come up
Running my finger's through your hair
As you lay there, all curled up
Lookin' at me with that give me one more kiss,
love doesn't get any better than this look on your face

I'd reach down and pull you up and we'd head that sailboat out
to sea
Chart our course for
Anywhere the wind blows anyplace we see
Our sails anchoring down
Lovin' the night away
Waitin' on the light of another perfect day

I want a little sand between my toes
The sunshine on your face
But today's the perfect day

We should be sittin' on the beach
Watching the sun come up
Running my finger's through your hair
As you lay there, all curled up
Lookin' at me with that give me one more kiss,
love doesn't get any better than this look on your face

I'd reach down and pull you up and we'd head that sailboat out
to sea
Chart our course for
Anywhere the wind blows anyplace we see
Our sails anchoring down
Lovin' the night away
Waitin' on the light of another perfect day

Lovin' the night away
Waitin' on the light of another perfect day
