Daddy's Will

Billy Dean

Daddy's will was stronger than the winds of a hurricane
Steady as a stone wall never did hear him complain
There were times when we had nothing
But the hope in his eyes
His spirit was unbroken and his faith was never tried

Daddy's will held us together
Determined he would make a better life for us all
He sacrificed unselfishly so our dreams could be fulfilled
But then again, Daddy's will

Got a sister on the west coast
And another who lives back east
I moved up to Nashville
Where I'm living out my dreams

But we all stay in touch these days talking on the line
'Bout how hard it is raising kids
Then where reminded of those times
(When)

Daddy's will held us together
Determined he would make a better life for us all
He sacrificed unselfishly so our dreams could be fulfilled
But then again, Daddy's will...
