

# Never Back Down

Billy Dean

If you've had enough  
Of the same old crowd  
And you want to rise up  
Well the time is now  
Oh the fight is tough  
You gotta stand your ground  
And if you still believe in the American Dream  
Then never back down  
Never back down, never back down  
If you still believe in living free  
Then never back down

They shame us just because we love our country  
Attacking everything that we hold dear  
And they shame us for our faith, our flag, our family  
So why the hell are they still living here

If you've had enough  
Of the same old crowd  
And you want to rise up  
Well the time is now  
Oh the fight is tough  
You gotta stand your ground  
And if you still believe in the American Dream  
Then never back down  
Never back down, never back down  
If you still believe in living free  
Then never back down

They put themselves above the love of country  
And the ones who sacrificed against all odds  
But we came from the greatest generation  
And we believe in one nation under God

If you've had enough  
Of the same old crowd  
And you want to rise up  
Well the time is now  
Oh the fight is tough  
You gotta stand your ground  
And if you still believe in the American Dream  
Then never back down  
Never back down, never back down  
If you still believe in living free  
Then never back down  
Never back down, never back down  
If you still believe in living free  
Then never back down  
Never back down
