

# Get It Got It Good

Billy Gilman

Set fire to the middle of the night  
The kids can't dance if it don't feel right  
Sound coming from the record store  
But I can't stand a sad song no more  
Let go, don't trust your mind  
If your heart still beats then your feet don't lie  
Better find someone to tell  
When the sun goes down gonna ring that bell

Let's keep this going  
Until the morning  
Without a warning  
We're gone

Dancing all night long  
This just might be wrong  
But don't it feel good  
Don't it feel good  
Dancing all night long  
I don't even know this song  
But don't it feel good  
Don't it feel good

Doesn't matter if you get it but you should  
Doesn't matter if you get it, got it, good  
Oh, get it, got it, good

Some say that the city's strange  
But the neon lights are spelling out my name  
They told us to move along  
No we can't stay here but we won't go home

Let's keep this going  
Until the morning  
Without a warning  
We're gone

Dancing all night long  
This just might be wrong  
But don't it feel good  
Don't it feel good  
Dancing all night long  
I don't even know this song  
But don't it feel good  
Don't it feel good

Doesn't matter if you get it but you should  
Doesn't matter if you get it, got it, good  
Oh, yeah  
Get it, got it, good  
Oh, yeah, yeah, yeah

Don't it feel, feel good  
Don't it feel, feel, feel good now  
Don't it feel, feel good  
Don't it feel, feel, feel good now  
Don't it feel, feel good

Don't it feel, feel, feel good  
Don't it feel, feel good  
Don't it feel, feel, feel good

Dancing all night long  
This just might be wrong  
But don't it feel good  
Don't it feel good  
Dancing all night long  
I don't even know this song  
But don't it feel good  
Don't it feel good

Doesn't matter if you get it but you should  
Doesn't matter if you get it but you should  
Doesn't matter if you get it, got it, good
