

# God's Alive And Well

Billy Gilman

When I see the stars hang in the sky, oh  
When I watch a bird spread its wings and fly  
And each time I hear the wind blow through the trees, oh  
With every breath of air that I breath  
All the things I can't see  
Still inside I believe

In a baby's laugh  
In a mother's eyes  
Little miracles around us  
Every day of our lives  
The way the sun lights up the dark  
The hope that I feel in my heart  
And as far as I can tell  
God's alive and well  
Yeah, God's alive and well

Just like the Earth cradles the moon, oh  
How that far-away sun still makes the flowers bloom  
And the joy only heaven can bring to a soul, oh  
If trouble comes, I am safe in the hands  
'Cause I know there's a plan  
My heart understands

In a baby's laugh  
In a mother's eye's  
Little miracles around us  
Every day of our lives  
The way the sun lights up the dark  
The hope that I feel in my heart  
And as far as I can tell  
God's alive and well  
Yeah, God's alive and well

Call it a little bit of luck  
Or just a simple twist of fate  
Oh, we get swept up in the arms  
You can feel it every day

In a baby's laugh  
In a mother's eyes  
Little miracles around us  
Every day of our lives  
The way the sun lights up the dark  
The hope that I feel in my heart  
And as far as I can tell

Yes, as far as I can tell  
God's alive and well  
Yeah, God's alive and well

As far as I can tell  
God's alive and well
