If You Could See Yourself In My Eyes

Billy Gilman

You know I see you hiding
In your little corner of the world
Read all the poem you're writing
'Bout a scared and lonely girl
Who doesn't know how much
I need to feel her warm and tender touch

[Chorus]
If you could see yourself through my eyes
You'd know that true love never lies
And you would realize how beautiful you are
If you could see yourself the way I do
You'd know that I loved you
Since the moment that you looked into my eyes

I need to tell you that the sunlight
Is always shining in your hair
I need to tell you nothin' feels right
Unless you're there
And you don't even know
That in my dreams I never let you go

[Chorus]
If you could see yourself through my eyes
You'd know that true love never lies
And you would realize how beautiful you are

Oooh how long has it been
Since somebody told you
You could hold your head up high above the rest
'Cause baby, you're the best

[Solo]
Just let me love you and you'll realize
How beautiful you are
If you could see yourself the way I do
You'd know that I loved you
Since the moment that you looked into
My eyes
