Some Things I Know

Billy Gilman

There's some things I know to be true Snow is white, and the ocean is blue Rain is wet, and it falls from the sky And the stars come out every night

And just as sure as the sun will rise This love is real, you see in my eyes Plant a seed and it will grow Some things I know

There's some things in life I need Water to drink, air to breathe A place to rest when I need sleep When I'm hungry, food to eat

As sure as I need the Lord above That's how much I need her love And I need shelter from the cold Some things I know

There's some things in life I want
To be thankful for all I've got
A friend to talk with, a hand to hold
To still be young when I grow old

And I want all my dreams to come true And I want to share them all with you And I just had to tell you so Some things I know

Oh, I just had to tell you so There's some things I know.
