

Going out after midnight
Two vampires on the street
People stare when we walk by
'Cause they're scared of you and me

I'm not the same as them, I never was
Never gonna let us in to their club
Know you gotta give it back as good as you got
'Cause this is our time and this is our shot

She said she don't wanna run anymore
Don't care about going to Heaven
She said do it like we did it before
Fight back like '77

Hey, hey, he-e-ey
Fight back like '77
Hey, hey, he-e-ey
Fight back like '77

King's Road every weekend
They hate us and they don't know why
No love from policemen
Too fast to live, too young to die

Here come the teddy boys and the skins
I can see them walking up on the bridge
No, it's not a fair fight, it never is
But you gotta swing first and you better not miss (Hey-hey)

She said she don't wanna run anymore
Don't care about going to Heaven
She said do it like we did it before
Fight back like '77

Hey, hey, he-e-ey
Fight back like '77
Hey, hey, he-e-ey
Fight back like '77

It's our lives in their hands
Same old thing it's always been
Sometimes we lose, sometimes we win
They show their teeth, we kick them in

She said she don't wanna run anymore
Don't care about going to Heaven
She said do it like we did it before
Fight back like '77

Hey, hey, he-e-ey
Fight back like '77
Hey, hey, he-e-ey
Fight back like '77

Fight back like '77
Fight back like '77
