

# One Breath Away

Billy Idol

If I had a world to give  
If I had a life to live  
Would you come to me?  
Would you come to me?

And if I had the time in hand  
Spelt out in grains of sand  
Would you be with me?  
Would you be with me?

You see that everything I do  
Still leaves me lost and alone for you

If I could find some time  
And a place to hide  
I could sit right down and free my mind  
One breath away  
One breath away

And I know the past is dead and gone  
Wasted emotions carry on  
One breath away  
One breath away, my dear

Girl, when you took me by the hand  
You touched the child inside the man  
And I was free  
Yes I was me  
But then love took a different turn  
And now the child begins to burn  
'cause I'm angry  
'cause I can feel

You see that everything I do  
Still leaves me lost and alone for you  
And I was free  
And I was free

If I could find some time  
And a place to hide  
I could sit right down and free my mind  
One breath away  
One breath away

And I know the past is dead and gone  
Wasted emotions carry on  
One breath away  
One breath away, my dear

Here comes the pressure  
And it's coming down hard  
My spirit is fading  
But I'm still gonna fight

Here comes the pressure  
And it's coming down hard  
My spirit is fading

But I'm still gonna fight

If I could find some time  
And a place to hide  
I could sit right down and free my mind  
One breath away  
One breath away

And I know the past is dead and gone  
Wasted emotions carry on  
One breath away  
One breath away, my dear

One breath away  
And that's the hardest breath to take, my dear
