

Helping Hand

Billy Joe Royal

Mmm

See the little baby
Crawling on the ground
He starts a-walking
Then he tumbles down
He's just a little baby
It's not his fault
Cause you crawl before you walk

He's trying to get a-used to
What he's not used to
Oh, he just don't-a
Understand
Trying to get a-used to
What he's not used to
Ah, he needs him a helping hand

And he's got a brother
Crying in the night
He used to have a lover
He didn't treat her right
Now tears are falling
She said goodbye
He didn't miss the water till the well rain dry

Oh, trying to get a-used to
What he's not used to
Oh, he just don't-a
He just don't-a understand
Trying to get a-used to
What he's not used to
Ah, he needs him a helping hand

A man needs a woman
To call his own
I had a woman
But now she's gone

And now (and now)
And now (and now)
And now (and now)
Gotta get a-used to (gotta get a-used to)
What I'm not used to (what he not used to)
Oh, I just don't
I just don't understand
Trying to get a-used to
What I'm not used to, baby
Ah, I need me a helping hand

Whoa, trying to get a-used to (gotta get a-used to)
What I'm not used to (what he not used to)
Oh, I just don't
I just don't understand
Trying to get a-used to
What I'm not used to, baby
Ah, I need me a helping hand

Trying to get a-used to (gotta get a-used to)
What I'm not used to (what he not used to)
Oh, I just don't
Understand
