

One Moving Part

Billy Joe Shaver

Too tall talking, it puts me walking
Don't let it get up next to me
It signify here and downright lying
Don't hang around that long enough to be
See, I learnt real young down on the farm
Simplicity don't need to be greased
I got it all down to one moving part
And that moving part is me

Footloose free and easy me ain't up to nothing but having fun
There ain't too many women left that I ain't loved on
Ain't too many crazy things that I ain't done
I'm on my own, a country born, come and go do as I please
I've got it all down to one moving part
And uh, that moving part is me
Yeah, I got it all down to one moving part
And that moving part is me
