

## Squidbilles Theme Song

Billy Joe Shaver

My dreams are all dead and buried  
Sometimes I wish the sun would just explode  
When God comes and calls me to his kingdom  
I'll take all ya sons of bitches when I go  
Let her blow!

Some how I got spinal meningitis  
Injecting all that hair spray in my spine  
It's a super cheap way to party  
If you aim to kill some brain cells and some time

My oldest son was born an albino  
My youngest is covered in hair  
The middle one says he's a homosexual  
And the other seven are gone, I don't know where

She run off and took our only chicken  
When I broke jail the house was burnt and bare  
The Japs moved the plant back to Osake  
Some days life just don't seem that fair

I gave all my best years to that woman  
All she gave me was mouths to feed  
A miracle straight from the loins of Jesus  
Since Charlie blew off both my testes

Get your Yankee ass off my property  
Don't care if the bank gave you a deed  
This farm has been ours for generations  
Since we fought back those sneaky Japanese
