

## Step On Up

Billy Joe Shaver

Step on up here baby  
I'll show you what's it's all about  
You know I'm packin' something  
Something you can't live without  
Get on down here with me  
Get your head out of the clouds

That's how the cow ate the cabbage  
Girl, you know I'm shootin' straight  
That's how us farm boys do it  
We don't swing on no one's gate  
Step on up here baby  
Or you can hurry up and wait

I saw you lookin' at me  
When you saw me seein' you  
You know my reputation  
I am everything I do  
I'll leave all of that stuff behind me  
If I can step on up with you

Step on up here baby  
I'll show you what's it all about  
You know I'm packin' something  
Something you can't live without  
Get on down here with me  
Get your head out of the clouds
