

Begging

Billy Lockett

We've been over and over the same mistakes
Call me crazy but I still love you the same
I get lost in my head at a cost
I'm obsessed
'Cause I know what we got
When it's good, it's great

You know I
I owe it all
Yeah, I tried
I hope you know

That I don't wanna force your feelings
I don't wanna change your mind
Falling on my knees, I'm begging for a second of your life
I was only looking for some changes
But I don't wanna change your mind
Falling on my knees, I'm begging
Can you spare a little time?
'Cause I gave you all of mine

You've been colder and colder with every step
And I've been closer and closer to our last breath
But I crave, so I wait, try to carve out your name
But I'm hoping in time that your mind will change

You know I
Owe it all
And I tried
I hope you know

That I don't wanna force your feelings
I don't wanna change your mind
Falling on my knees, I'm begging for a second of your life
I was only looking for some changes
But I don't wanna change your mind
Falling on my knees, I'm begging
Can you spare a little time?
'Cause I gave you all of mine

'Cause I gave you all of mine
'Cause I gave you all of mine
'Cause I gave you all of mine

And I don't wanna force your feelings
I don't wanna change your mind
Falling on my knees, I'm begging
Can you spare a little time?
