

Easy

Billy Lockett

Take my hand 'cause right now
I don't need anything else
Let me turn down the lights
Take a chance, lay down
Hold me like nobody else
Forget everything tonight

And I miss the days when we call in sick
And hide away from all the shit
We'd laugh and say, "When we're old and grey
We'll never change"

We're not making it easy
Making it easy on ourselves
And I can't believe it
But there's something we need to talk about
And I've been scared to say it all
But somehow I know you know
We're not making it easy
Making it easy on ourselves anymore

Take my words lightly
'Cause lately they're weighing me down
And I've never fallen this hard
And it's not fair
'Cause deep down I know you care

And I miss the days when I take your phone
And lie for you so you'd stay home
We'd laugh and say, "When we're old and grey
We'll never change"

We're not making it easy
Making it easy on ourselves
And I can't believe it
But there's something we need to talk about
And I've been scared to say it all
But somehow I know you know
We're not making it easy
Making it easy on ourselves

And I
I could always read your mind
But there's something in the way this time

We're not making it easy
Making it easy on ourselves
And I can't believe it
But there's something we need to talk about

And I've been scared to say it all
But somehow I know you know
We're not making it easy
Making it easy on ourselves

Anymore, anymore, anymore, anymore
