

## Fading Into Grey

Billy Lockett

Is there anyone there?  
'Cause lately you've not been yourself  
Am I overthinking  
Or are you thinking 'bout somebody else?  
Am I going crazy now?  
Keep on talking to myself  
Is everything changing?  
I swear you've been changing

How long can I try to pretend  
That it's all in my head?  
'Cause I just don't want to forget what we were feeling  
Regret that we were gold

If you're out of love  
All you gotta do is say  
Promise you won't make me wait around for nothing  
Fading into grey  
If you're out of love  
All you gotta do is say  
Promise you won't make me wait around for nothing  
Fading into grey

I can't go any further  
I've already given too much  
For me there's no other  
But for you that was never enough

I try to pretend  
That it's all in my head  
But I just don't want to forget what we were feeling  
Regret that we were gold

If you're out of love  
All you gotta do is say  
Promise you won't make me wait around for nothing  
Fading into grey  
If you're out of love  
All you gotta do is say  
Promise you won't make me wait around for nothing  
Fading into grey

If you're out of love  
Tracing the outline of your shape in the bed  
Tracing the outline of your shape in the bed  
If you're out of love  
Tracing the outline of your shape in the bed  
Tracing the outline of your shape in the bed

If you're out of love  
All you gotta do is say  
Promise you won't make me wait around for nothing  
Fading into grey  
If you're out of love  
All you gotta do is say  
Promise you won't make me wait around for nothing  
Fading into grey

If you're out of love

If you're out of love

All you gotta do is say

Promise you won't make me wait around for nothing
