

Disco Type Beat

Billy Marchiafava

This that new wave, turn it up
I'm in the backseat chillin' with your girl, what's up
She wanna talk all day but I'm not in the mood
I'm tryna dance all night, I got somethin' to do
I make hits for the people at home in their rooms
Looking for a reason to get out of it soon
Found me on the internet, just making some moves
Now I'm going up, CCN on the news

She gon' shake, shake, shake, like a bottle she pop that
I'm off that, pull up on you with a Nerf pack
I bust back, I been feelin' bad for the haters
Streamin' all my music, now they're wantin' their fun back
Oh my God, she on my mind now
This song make me wanna wild out
Don't act like you too cool to dance now
No diamonds but I'm still gon' bust down

You gotta leave those worries on your shelf
Whatever happened to being yourself? I don't know
But tonight let's lose control
Life ain't fun if you all alone
I can get you anything that you want and more

I'm a lyrical genius
This whole song took ten minutes to think up
Just for you to bump it in them brand new speakers
Forget it in a week, where's that brand new single?
I got chains like Mr. T
But you don't wanna try 'em on, turn your whole neck green
I'm in a limabean limousine
Cup of coffee and a magazine
I flex real hard like Muscle Man
I'm in the city doin' donuts in a sprinter van
I'm on top, ceilin' fan
I got bars, candy man
She don't know my name but know my fame, awesome
If I'm on stage then I get paid, awesome
I'm eating good, I'm feeling great, awesome

You gotta leave those worries on your shelf
Whatever happened to being yourself? I don't know
But tonight let's lose control
Life ain't fun if you all alone
I can get you anything that you want and more

You gotta leave those worries on your shelf
Whatever happened to being yourself? I don't know
But tonight let's lose control
Life ain't fun if you all alone
I can get you anything that you want and more
