

JESTER

Billy Marchiafava

You thought I was done
You're mistaken
I need my eggs sunny side with some bacon
I don't get mad, baby, Billy get even

Wake up and get the fucking bag
This evening, I'm a tough active
Follow, grab the bottle and wild out
Bitches hit my line but forgot that I'm tied down
Yeah
I was 20 when first started this rap
Shit the fact that I'm still here is just part of the magic
I inspired the whole damn generation
Show these motherfuckers how to rework the basics, the image, the blueprint,
the whole damn creation
Turn my studio into the fucking matrix
I jumped in the screen
Start speaking in wingdings
Sell my catalog on Craig's list for three things
My dad can't understand the streams these songs got we just get together
Sip espresso like old farts
My old friends now watch me on a screen
And would love to take back everything they didn't mean
I made peace with being a fucking meme
I'm a jester motherfuckers
Getting paid like a king
I don't stress about shit
All I do is make music
Really glad I listened to myself and kept improving through the bullshit, th
rough the sickness, through the mucus
Through the motherfuckers that said
Fuck your music
I keep dropping
Yeah
No sign of stopping
Make one wrong move
I'll be working at fucking target
Even Dan E. Cook filled a fucking stadium
Then work this way back to playing shows at the casino
Yeah
You know Humpty Dumpty really had a great fall
I just hope he got the fucking bag before he cracked his dumb-ass skull

I'm a motherfucking knucklehead McSpazzatron
My mom used to put me in front of the TV for fucking marathons
Re-runs of everything
Consuming all the humor
20 years later, I'm the one that y'all consuming
And that's great
But don't compare me to the greats
No. I am just an actor and this mic is just a stage
Yeah
I am just an actor and this mic is just a stage
What?
I am just an actor and this mic is just a stage

Billy, Billy, Billy, Billy, Billy, Billy, Billy

Hey, hey

You're tuning in right now motherfuckers

This shit is 1 0 1 point 2

The fucking ass

My name is bit but Harry motherfucking idiot

And you're listening to Billy is terrible

Keep on streaming those songs, ladies and gentlemen

It's only getting worse from here
