

## Legend

Billy Marchiafava

Yo lowkey this is the greatest thing I've ever made  
Tho I say that about everything I make  
Cause' everything I make is amazing  
Obviously

Rick Ruben, wrist movin', sauce whippin', I'm the man  
Rollin' blunts in the sand, bad bitches gettin' tan  
All bricks when I walk, diamonds when I talk  
Lobster on my plate, brody get a job  
Sauced up, purple in my cup  
Don't tell me how to live, don't call me say "What's up?"  
This is not yo fuckin' life, couldn't handle all this ice  
All my diamonds bright yeah  
All my pockets, tight

This that summer night shit  
Windows down just to see the fuckin' sky shit  
I'm a legend where I live so don't try shit  
Rock with' it, rock with' it  
Catch a vibe shit  
You don't know shit  
24 karats on my wrist, Bruno Mars  
Bad little bitty she gon' latch on to my arms  
All jokes aside I'm a rich young man  
You a joke, you a lie, you a bitch young  
Man

Aye  
Bitch thought I told ya, got money like Oprah  
My diamonds all frozen, I think I was chosen  
I said I ain't boastin', we mixin' the potion  
Young boy you a poser, my dad raised a soldier  
Fuck your composer  
Listen  
You thinkin' you cute  
All of the things that you buyin'  
But inside you crying  
You know that it sucks to be you  
Flexin' on insta, but you know you nothin'  
You chose to look like a fool  
What can I say?  
You chose to live like a fool
