Tell me all the things you've seen  
Tell me, is the grass on the other side green?  
I'm starting to get older, need your guidance  
My head hurts, it's my sinus  
You always had the remedies

I'm still your kid  
If I could find you again, a perfect life you'd live  
Your energy exists  
So wherever you're floating, come and float right here

I'm okay, but I'd be better with you  
I know it's true

Maureen, where'd you go?  
Maureen, I gotta know  
Maureen, where'd you go?  
Maureen, I gotta know  
Maureen, where'd you go, come on  
You know every kid really needs their mom  
Maureen, where'd you go, come on  
You know every kid really needs their mom

Mama, I'm sorry  
Can you hear my voice, I'm calling  
Mama, I'm sorry  
When I close my eyes, I'm falling  
Mama, I'm sorry  
I know you could use some company  
Mama, I'm sorry  
If I could turn back time, I'd say "Take me"

I'm okay, but I'd be better with you  
I know it's true

Maureen (Where'd you go?) (I'm okay, but I'd be better with you  
) Tell me everything you've seen (Where'd you go?) (I know it's  
true) [?]  
Is the grass really that green?
