

Here You Are

Billy Ocean

I cound't walk away
'Cause when you smile to me
Many things I have to say
You're shine and light in this heart of mine
I think about you all the time
Now, I need you in my life
Yes I need someone to love and I'm prepared to sacrifice
Everyday I now for sure you have me found the dream I had before
Each night I ask my self what should I do
Now, I know dreams do come truth

'Cause here you are
I wating for love like this to make me secure
Here you are
Oh, I never felt this way before
Everyday I want you more and more
Darling here you are

Mmm, when my love is like a flame
A burning fire got brighter ever since you came
And now I know it's not too late
For your love unprepared to wait

Each night I asked myself, what should I do
Now you showed dreams do come true

Cause here you are
I waited for a love like this to make me feel secure
Here you are
Oh I never felt this way before
Every day I want you more and more
Darling here you are

Caught up in emotion
My heart had been broken
I've so many times I've tried that is hard to live alive

Now here you are
I waited for a love like this to make me feel secure
Here you are
Oh I never felt this way before
Every day I want you more and more
Darling here you are

Oh
Oh I never felt this way before
Everyday I want you more and more
Darling here you are

Ooooh
Oh baby, darling here you are
