

Mystery

Billy Ocean

You tricked me
Like your brother
How can I play that game
When you're more than a friend to me?
Oh, I want you
To be my lover
So if you feel the same
Tell me that you'll let it be

Oh, help me to unfold the mystery
The one you hide behind your smile
I sense it every time you're near me
All the while (it's a mystery)
Whoa, you give me such a feeling
I get it when you call my name
It's a mystery, driving me crazy
Can't explain (it's a mystery)

Just say it
And I'll surrender
Oh, when I look at you
I hunger for the things I see
Consider
And think it over
And if you need a shoulder
I will be your shelter, lean on me
Oh, baby

Help me to unfold the mystery
The one you hide behind your smile
I sense it every time you're near me
All the while (it's a mystery)
Whoa, you give me such a feeling
I get it when you call my name
It's a mystery, driving me crazy
Can't explain (it's a mystery)

You know I need your loving
I gotta have your love
I really want your loving
How can I get your love?

Oh, baby

Help me to unfold the mystery
The one you hide behind your smile
I sense it every time you're near me
All the while (it's a mystery)
Whoa, you give me such a feeling
I get it when you call my name
It's a mystery, driving me crazy
Can't explain (it's a mystery)

You know I need your loving (oh, I surrender)
