

One World

Billy Ocean

So many people
Living in the world today
Trying to find an answer
Searching for a better way
So much demonstrations
People voicing their opinion
We got to find the solution
What we need is a love revolution

'Cause we got one world
So let's take care of business
Don't wait another day
We got one love, yeah
Keep on holding on
No letting go
We got one world, mmh
Delivering a message
I came here to tell you
We've got one dream, mmh
Brothers and sisters
You know what I mean

Callous people out there
In the world today
Will burst your bubble
Hurting by the games they play
But I know (I know) and I feel (I see)
I see there's something going on (yeah)
It's time for us to turn it around (ooh-ooh)
We can't afford to get it wrong

'Cause we got one world
So let's take care of business
Don't wait another day
We got one love, mmh
Keep on holding on
No letting go
We got one world, eh
I'm delivering a message
I came here to tell you
We got one dream
Brothers and sisters
You know what I mean

One world
One dream, one hope
One love, one chance
One mind, one faith
This human race
Oh, and this human race, oh-oh
One love, one hope
One dream, one love

We got one world, yeah
Let's take care of business
Don't wait another day
We got one love, mmh, yeah

Keep on holding on
No letting go
We got one world
Delivering a message
I came here to let you know
One dream, yeah
Brothers and sisters
You know what I mean
