

Do What You Want

Billy Preston

Somethin' about you that I can't explain
Compared to the other girls you're not the same
Your hairstyle is different, your walk is too
When you're in doubt, you ask what to do

Do what you want to
I will love you anyway, hey

Time you stopped listenin' to what they say
Sound the past on and live your best today
Stay out of trouble as much as you can
I'll always remain your man

Do what you want to
I will love you anyway, not just one but everyday
In my eyes, you do no wrong
That's why I keep on singin' this song

Yours is a property that's hard to find
Whatever you do, bear this in mind
In my eyes you can do no wrong
A kiss from you makes Billy strong

Do what you want
I will love you anyway, hey
I will love you anyway, hey
I will love you anyway, hey
Do what you want to, baby
Do what you want to
I will love you anyway

Time you stopped listenin' to what folks say
Sound the past on and live your best today
Stay out of trouble as much as you can
And I'll always remain your man

Do what you want to
I will love you anyway, hey
Do what you want to
I will love you anyway, hey
I will love you anyway, hey
I will love you anyway, hey
I will love you anyway, hey
I will love you anyway, hey
