

It's So Easy

Billy Preston

Flowers in the bedroom and kisses over coffee
It's so easy being here with you
It's so easy

Lovin' in the evening that lingers into morning
It's so easy being here with you
It's so easy

There's a world outside your arms that's not so nice
Lots of days I'm only half alive
Gotta grit my teeth and simply take it 9-5

But when evening comes around the world is mine
It's my heart that tells me what to do
All I need to have at all is you and only you

So I hurry to my bedroom with the flowers and perfume on the pillows
It's so easy being here with you
It's so easy

The quiet way you hold me when I just feel like crying
It's so easy being here with you
It's so easy

There's a world outside your arms that's not so nice
Lots of days I'm only half alive
Gotta grit my teeth and simply take it 9-5

But when evening comes around the world is mine
It's my heart that tells me what to do
All I need to have at all is you and only you

So I hurry to the flowers in the bedroom and kisses over coffee
It's so easy being here with you

The lovin' in the morning that lingers till the evening
It's so easy being here with you

The silly sweet surprises here lay beside my pillow
It's so easy being here with you

The flowers in the bedroom, the kisses over coffee
It's so easy being here with you, baby
It's so easy
