

Just For Us

Billy Preston

The sky of blue, the sea of green
The sun, the moon and everything
The still of night, the light of day
The joy of life will never go away

God's love is something special, yes, it is
He has made our dream come true
Just for us, God did it
Just for us

The summer's heat, the winter's cold
The breath of spring on the leaves of gold
The lightning's flash, the four wind's roar
The thunder's crash, we stand at heaven's door

God's love is something special, yes, it is
He has made our dream come true
Just for us, God did it
He did it just for us
Just for us, God did it
God did it just for us

Love is a feeling, my life's appealing
Since the first moment my soul was born
Now I'm just living, to You I'm giving
Wholeheartedly I'm hanging on

The still of nights, the light of day
The joy of life will never go away

God's love is something special, yes, it is
He has made our dream come true
Just for us, God did it
Everything is just for us

The sky of blue, the sea of green
The sun, the moon and everything
The lightning's flash and the four wind's roar
The thunder's crash, we stand at heaven's door

God's love is something special, yes, it is
He has made our dreams come true
Just for us, God did it
Everything is just for us

Children of God, it's for us, it's just for us
