

We're Gonna Make It

Billy Preston

You've got to fight, for what you want
When you get it, no-one can take it
You've got to start, to reach your goals
Once you get there, no-one can take it

Let nothing get you down
Keep on climbin', take ground, ground, ground
And I know, I know, I know, I know, we gonna make it
(We gonna make it... yes, we will)
And I know, I know, I know, I know, we gonna make it
(We gonna make it... yes, we will)

You gotta dream, on your own
And you know you're qualified to make it
You got to make a stand, on do or die
Before them... let others fake it

Let nothing bring you down!
You keep climbin', take ground, ground, ground
And I know, I know, I know, I know, we gonna make it
(We gonna make it... yes, we will)
And I know, I know, I know, I know, we gonna make it
(We gonna make it... yes, we will)

You've got to fight, for what you want
When you get it, no-one can take it
Well, you've got to start, to reach your goal
When you get there, no-one can take it

Listen... let nothin' get you down! No...
You keep on climbin', take ground, ground, ground
And I know, I know, I know, I know, we gonna make it
(We gonna make it... yes, we will)
And I know, I know, I know, I-II know, we gonna make it
(We gonna make it... yes, we will)
And I know, I know, I know, I know, we gonna make it
(We gonna make it... yes, we will)
Oh, baby! Hey, hey! Hey, hey!
We gonna make it! Yes, we will!
(We gonna make it... yes, we will)
And I know, I know, I know, I know, we gonna make it
(We gonna make it... yes, we will)
And I know, I-IIIIII know, I know, we gonna make it
(We gonna make it... yes, we will)
...
