

## Acoustic

Billy Raffoul

Baby, we could strip it down  
We could take it back to basics  
Baby, we control the sound  
We could make it wake the neighbours  
But baby, let's be quiet now  
Reach out, pull down on a fader

We don't have to get so theatrical  
'Cause you know even simple can be special

We don't have to get loud to lose it  
All we need is just me and you  
We don't have to scream loud to prove it  
We could keep it all acoustic  
Ooh, keep it all acoustic  
Ooh, keep it all

Let me see the real you  
Baby, take off all your make-up  
Undress me to the naked truth  
Until we're both uncomplicated  
Let's hold the things we wanna do  
It's so much better when we're naked

We don't have to get so theatrical  
'Cause you know even simple can be special

We don't have to get loud to lose it  
All we need is just me and you  
We don't have to scream loud to prove it  
We could keep it all acoustic  
Ooh, keep it all acoustic  
Ooh, keep it all

Your fingertips on my neck, oh  
Pull me in close to your lips, oh

We don't have to get loud to lose it  
All we need is just me and you  
We don't have to scream loud to prove it  
We could keep it all acoustic  
We don't have to get loud to lose it  
All we need is just me and you  
We don't have to scream loud to prove it  
We could keep it all acoustic  
Ooh, keep it all acoustic  
Ooh, keep it all
