

Alligator

Billy Raffoul

I kinda wish I never met you
I wouldn't have to forget how cool you are
You're the best part of my bedroom
Otherwise, it's just a box full of guitars

I would wear you like a tattoo
To remind me of the reason I'm alive
What a silly thing that we do
To be young is to be dumb is to be twenty-five

If you were a creature
You'd be an alligator
Only took a sec to scare me to death
Driving in your foreign I might die of boredom
One more night in Florida I'll lose my head
With your teeth on my neck
Put your teeth on my neck

Before we started catching feelings
I kinda like the way your name fell out my mouth
Now we're staring at the ceiling
And I second guess my thoughts before I blurt them out

Blaargh

If you were a creature
You'd be an alligator
Only took a sec to scare me to death
Driving in your foreign I might die of boredom
One more night in Florida I'll lose my head
With your teeth on my neck
Put your teeth on my neck

You got bad news for the good guys
You got bad news it's a surprise
You got bad news for the good guys
Put your teeth on my neck

Blaargh

Nah nah nah nah nah
Nah nah nah nah nah
Nah nah nah nah nah nah
Put your teeth on my neck
You got bad news for the good guys
You got bad news it's a surprise (put your teeth on my neck)
You got bad news for the good guys
Put your teeth on my neck
