

Difficult

Billy Raffoul

You never get lost in love, you only get lost in me
You never can get enough of whatever you think you need
No matter how hard I try I never can beat this rush
Ain't nobody get me high, feel lighter when we touch

And now I'm standing in the rain
And your hair, it's falling in your face
And I know we're doing the right thing
But I can't help wondering, who will take my place?

Now, who's gonna hold me like you do?
Now, who's gonna hold me like you do?
On and off, difficult
Too in love to let it go
Who's gonna hold me like you do?

We never get lost in love, we only get lost in sheets
You'd rather just shut me off whenever we get too deep

And now I'm standing in the rain
And your hair, it's falling in your face
And I know we're doing the right thing
But I can't help wondering, who will take my place?

Now, who's gonna hold me like you do?
Now, who's gonna hold me like you do?
On and off, difficult
Too in love to let it go
Now, who's gonna hold me like you do?

Tell me why it's so difficult, difficult
Difficult
Tell me why it's so difficult, difficult
Difficult
Tell me why it's so difficult, difficult
Difficult
Babe, it's so difficult
Difficult, difficult
Difficult

Now, who's gonna hold me like you do?
(Like you do, babe)
Now, who's gonna hold me like you do?
(Like you do)
On and off, difficult
Too in love to let it go
Now, who's gonna hold me like you do?

And who's gonna hold you like I do?
