

Never Be Without Love

Billy Raffoul

We've been worked over
By people who came long before us
And taught us that pain's part of love
My love
My love

How does it feel?
To finally be smiling for real
To learn that these scars they do heal oh
They heal oh my dear oh
You'll be never be without love
You'll be never be without love

I will adore you
I wouldn't even know how not to
I'm pleading with god let me keep you
My love
My love

How does it feel?
To finally be smiling for real
To learn that these scars they do heal oh
They heal oh my dear oh
You'll be never be without love
You'll be never be without love
You'll be never be without love
You'll be never be without love

We'd be just fine alone
But fine ain't all
I want for us my dear

How does it feel?
To finally be smiling for real
To learn that these scars they do heal oh
They heal oh my dear oh
You'll be never be without love
You'll be never be without love
You'll be never be without love
You'll be never be without love
