

# Proving Ground

Billy Raffoul

Just put the Cadillac back on the road  
It's a nice night, baby, and I'm ready to go  
There's gotta be some way outta here  
To chase down the dreams that we held dear

I ain't gonna lie to you, I wish I could  
I just wanna ride with you, till smoke creeps out this hood

There's a cold wind blowing  
It's changing, I just know it  
For once in your life, you're gonna have to stick around  
'Cause you got caught  
It's a soft spot  
All your life you been taught  
A man ain't a man until he's let you down  
But if you give me a chance, I'll be your proving ground  
Oh, oh, oh  
Oh, oh, oh  
Oh, oh, oh

I'm nothing more than a simple man  
With hand-me-down dreams and a rock and roll band  
Swallowing my pride for you  
You know I would  
Put it on the line for you  
Till smoke creeps out this hood

There's a cold wind blowing  
It's changing, I just know it  
For once in your life, you're gonna have to stick around  
'Cause you got caught  
It's a soft spot  
All your life you been taught  
A man ain't a man until he's let you down  
But if you give me a chance, I'll be your proving ground  
Yeah

The light may fade  
But I'll follow you any place  
No pride, no shame  
'Cause I want you, and I can't stop this feeling that I got

There's a cold wind blowing  
It's changing, I just know it  
For once in your life, you're gonna have to stick around  
'Cause you got caught  
It's a soft spot  
All your life you been taught  
A man ain't a man until he's let you down  
Oh, if you give me a chance, I'll be your proving ground  
Oh, oh, oh  
Oh, oh, oh  
I'll be your proving ground  
Oh, oh, oh  
Oh, oh, oh  
Yeah
