

Running Wild

Billy Raffoul

Carry us home
In an office as gazy, let it slide
On the street, we were raised with a church light
Let us know it was home time
Stolen street-signs
Consumption in public and small fights
Realized our only crime
Was thinkin' we had all the time

And, Lord, I feel like every street holds a memory
For every low, there was a high hope
I know no matter where I go

That we were born restless
And we were born runnin' wild
We were born restless
And we were born runnin' wild

Rollerbladin'
Found our names and our hands on the pavement
So quickly the years came and went
All of the time we'd spent
Still I can't forsake home
Can't get out of my mind, every bad joke
They remind of the other time
Before innocence fell behind

And we would stay out in the street makin' memories
For every low, we found a high hope
I know no matter where I go

That we were born restless
And we were born runnin' wild
We were born restless
And we were born runnin' wild

Who taught you how to drive a car?
How to smile with a broken heart?

'Cause very single street holds a memory
I feel alone and I can't get high hope
I know no matter where I go
Twenty-one is young to be feelin' old
Waitin' to hear if you're here anymore
And, oh, I know no matter where I go

That we were born restless
And we were born runnin' wild
We were born restless
We were born runnin' wild
