

# We Could Get High

Billy Raffoul

Already know how this thing goes  
You show up here at three in the morning  
Wearing yesterday's clothes  
And everything we sworn off

Growing up is hard sometimes

'Cause we're broken, baby, we know it  
Maybe that's why we chose to stay  
We're hopeless, stuck in the moment  
But it don't have to be this way

We could get high  
We could get high

Just leave me out in the cold  
'Cause heartbreak it don't hurt like hope  
Whenever I wanted to fold  
You'd pull me in with something to hold onto

That's uh... so cruel

'Cause we're broken, baby, we know it  
Maybe that's why we chose to stay  
We're hopeless, stuck in the moment  
But it don't have to be this way

We could get high  
We could get high

Oh yeah!

Yeah!

At your place on Fox is where you dared me not to fall into those eyes  
You know the kind of scene romantic comedies always over romanticize  
I was skipping school and learning things from you I couldn't from my profes  
sor  
And when they said "Billy, explain your truancy", I said "I'll take it up wi  
th the Prime Minister"

We could get high (we could get high)  
We could get high (we could get high)  
Oh

'Cause we're broken, baby, we know it  
Maybe that's why we chose to stay

We could get high  
We could get high

Oh yeah!
