

# Hope (Let It Find You)

Billy Ray Cyrus

I've been through every kind of hurt  
And I felt more joy  
Than anyone deserve  
I leave my dreams down the dirt  
And then I found a way  
To believe there's so much more

I never asked why  
I just keep trying

Hope will give you all you need  
And take away what binds you  
Hope will give you everything  
If you let it find you  
Hope will make you whole  
Hope will fill your soul  
With hope

When my spirit starts to break  
And I've had all I could take  
I reach out for something  
And when I'm searching for my truth  
The same ray of proof  
Leads me back to you

I never asked why  
I just keep trying

Hope will give you all you need  
And take away what binds you  
Hope will give you everything  
If you let it find you  
Hope will heal your soul

I never asked why  
I just keep trying  
There's no denying

Hope will bring you to your knees  
And take away the chains that bind you

Hope will give you everything  
If you let it find you  
Hope will make you whole  
Hope will fill your soul  
With hope
