

Meant to Be

Billy Ray Cyrus

Did you ever see an act in the moonlight
A waterfalls in the hills of Tennessee
Did you ever ask yourself just how you found out
I guess some things my lover meant to be
Did you ever walk the smokies in Caroline
Go the [?] deep thing on mountain stream
Watch the sunset west of Texarkana

It's when you know some things are meant to be
Meant to be like jesus hanging on the cross
Meant to be like my oldman
At the battle that he lost
All I know is baby
And love is all I need
And I know that I know something's are meant to be

Did you ever see a newborn
How sad their mom
Many heard a buffalo are running free
A of two world sound in a blow of the northern lights
That's when you know somethings are meant to be

Meant to be like jesus hanging on the cross
Meant to be like my oldman
At the battle that he lost
All I know is baby
And love is all I need
And I know that I know something's are meant to be
And I know that I know something's are meant to be
And I know that I know something's are meant to be
