

Ole What's Her Name

Billy Ray Cyrus

They say love is blind
I know that still rings true
Cause I couldn't see it comin'
But when it landed I sure knew
Well it knocked me to my knees
It hit me like a train
And I never will forget
Ole what's her name

I gotta long term loss of short term memory
And one thing in my life is forever changed
I'm sure I fell in love
With this angel from above
And I never will forget ole what's her name
Oh what's her name?

Time just keeps on tickin'
And I've tried to move on
And though I keep on searchin'
I'm pretty sure she's gone
I know I'll always miss her
And things will never be the same
And I never will forget
Ole what's her name

I gotta long term loss of short term memory
And one thing in my life is forever changed
I'm sure I fell in love
With this angel from above
And I never will forget ole what's her name
Oh what's her name?
