

# Rock This Planet

Billy Ray Cyrus

I've been on the road since I was a kid  
I was born to lead this life I live  
Fate placed me among the chosen few  
I'm a man with a mission got a job to do

Rock this planet (rock this planet) rock this planet (rock this planet)

The world needs rockin' and I ain't stoppin' till it's done

Well I'd love to stay baby but I've got to run  
People everywhere need to have some fun  
I've got the message that'll set 'em free  
The whole dang world is depending on me

To rock this planet (rock this planet)...

We did a show in Tokyo they ate it up  
Paris and Rome couldn't get enough  
When we were done in London we were Berlin bound  
We cranked it up till the Wall came down

Rock this planet (rock this planet)...

Rock this planet (rock this planet)...

The world needs rockin' and I ain't stoppin' till it's done
