Stand Still

Billy Ray Cyrus

When I was just a little boy, I wandered through the woods Searchin' for my daddy through the pines. I guess I took a wrong turn Somewhere along the way But the Bible said "Seek and ye shall find" Daylight turned to darkness Adventure turned to fear And, when I found my way back home His words I still can hear...

Stand Still! When you're in the dark. Listen to your heart And pray for Gods will Stand Still Adrift in the wind... Your voice within Will be your best friend Stand Still... and pray Stand Still

Now that I'm a grown man On my own and on my way I've got my own decisions to be made And when I'm at the crossroads Unforsure and unforeseen, I bow my head And with these words I pray.
