

# Stop Pickin' On Willie

Billy Ray Cyrus

There was a man that devised a plan to keep our plans alive  
When the news said "this country's dead", but his music still survived  
When there's a water gate and we're all hating, the rest seems kinda silly  
Don't y'all think it's time to stop pickin' on Willie?

Now this silent country step-up fare they dragged on forever  
Big old live-wire where other's died from some undercover endeavor  
On the world stage the crowd raged when the team stopped Willie  
Don't y'all think it's time to stop pickin' on Willie?

Stop pickin' on Willie  
Can't you see a hero in disguise?  
Stop pickin' on Willie  
Let your maker be the judge through his own eyes  
Let your maker be the judge through his own eyes

[?]  
Some flag burning, commie preacher [?] demonstrated don't have to pay a dime  
Saddam Hussein lost his brain and the whole world tried to kill him  
Don't y'all think it's time to stop pickin' on Willie?

Stop pickin' on Willie  
Can't you see a hero in disguise?  
Stop pickin' on Willie  
Let your maker be the judge through his own eyes  
Let your maker be the judge through his own eyes
