

# What About Us

Billy Ray Cyrus

I still don't understand how things got out of hand  
One day you looked away, next thing I heard you say  
Goodbye, oh, goodbye

What about love, what about faith  
What about the kids and what they would think  
What about tears, what about time  
What about the day you said you were mine  
Hey, what about us?

I know the past is past and though it hurts to ask  
These teardrops in my eyes say all the reasons why  
Oh, why, tell me why

And what about love, what about faith  
What about the kids and what they would think  
What about tears, what about time  
What about the day you said you were mine  
Hey, what about us?

What about us?

What about love, what about faith  
What about the kids and what they would think  
What about tears, what about time  
What about the day you said you were mine  
Hey, what about us?

What about us?  
What about love?  
What about tears?
