

When She Comes To Me

Billy Squier

One drum beatin' in the darkness
Poundin' out a journey of a million miles
One song spins around in circles
Waitin' for a singer who can groove with style

There's a number on my pager
There's a picture on the wall
If she's lost, I'm gonna save her
Ha, ha, ha

I'll be there when she comes to me
Back to where we started
I'll be right where I wanna be
Back to where we started
I'll be there when she comes to me

She comes close but not so certain
Hides behind a curtain of a thousand dreams
One song, spinnin' in the darkness
Lost in the shadows of her inbetweens

I'm a door without a handle
I'm a dog without a name
I'm a flame without a candle
Hey, hey, hey

I'll be there when she comes to me
Just like when we started
I'll be right where I wanna be
Back to where we started

I'll be there crawlin' on my knees
Just like when we started
I'll be there when she comes to me

Waitin' on you

I'll be there when she comes to me
Right back where we started
I'll be there when she comes to please
Just like when we started

I'll be there when she comes to me
Back to where we started
I'll be there, sink your hooves in me
Ha, ha, ha

I'll be there when she comes to me
I'll be there when she comes to me
Ha, ha, ha

I'll be there when she comes to me
I'll be there when she comes to me
