

Hide And Seek

Billy Strings

A twisted game of hide and seek
The stench of darkness and defeat
Another day without relief
Leaves me broken

Curtains falling all around
Echoes up from underground
Screaming out without a sound
Leaves me breathless

Well it's a dark time I do believe
A cold winds a blowin' at my door
Incredible light I'm gonna find
Where I don't have to worry anymore

A feast for eyes deprived of peace
Internal pressure no release
Pain eternal my disease
Neverending

Paralyzed and drowned in thought
All the things that I have lost
My salvation can't be bought
Drains me empty

Well it's a dark time I do believe
A cold winds a blowin' at my door
Incredible light I'm gonna find
Where I don't have to worry anymore

I wasn't ready to believe
Constant failure to achieve
Nothing hidden up my sleeve
I remember

Well it's a dark time I do believe
A cold winds a blowin' at my door
Incredible light I'm gonna find
Where I don't have to worry anymore

It's a dark time I do believe
A cold winds a blowin' at my door
Incredible light I'm gonna find
Where I don't have to worry anymore
